

Diamond Ladder™

from Clow Group Ltd.

Diamond EN131:Professional Insulated Glassfibre Step

The Diamond Insulated Glassfibre Step from the Clow Group is designed for industrial and trade use and meets all the requirements of European EN131 Professional Standard.

The sturdy construction of this step, combined with the non-conductive stiles and tool tray make this the ideal stepladder for use within the electrical and engineering trade.

- Strong Fibreglass Front Stiles
- Heavy Duty Fibreglass Rear Stiles
- Serrated Aluminium Treads for Secure Foothold
- Unique Reinforced Stay Locking System
- Certified to EN131:Professional standard
- 150kg Maximum Load
