

Clow EN131:Professional Reach-A-Light Ladder

With 5 different variations, the Clow Reach-A-Light ladder is the ultimate in versatility and is ideal for those difficult to reach jobs.

Multiple configurations include Step Ladder, an Extended Step Ladder, a Single Section Ladder, a Double Section Ladder and Triple Section Ladder.

Ideal for use in church halls, gymnasiums and any buildings with similarly high ceilings where a free standing and self supporting ladder is required.

Unique automatic rung locks prevent the ladder sections accidentally separating when the ladder is in use.

Suitable for use by the professional or DIY enthusiast.

- Easily transported
- Box-section aluminium stiles
- Automatic rung locks
- Non-slip aluminium treads
- Light weight
- Robust & durable
- EN131:Professional Standard
- Maximum load to 150kg
